

JAN – DEC 2020

TRAINING  
FOR LIGHTING  
PROFESSIONALS

# AN INTRODUCTION

## Welcome to the TRILUX Akademie

Lighting professionals in the UK can now benefit from the international success of the TRILUX Akademie. Since September 2015, the Akademie site in Chelmsford has been offering training on the very latest topics in the light and lighting sector.

Providing knowledge, reducing complexity and establishing expertise is the aim of the TRILUX Akademie. The demands of lighting solutions are increasing continuously with the rapid advancement in LED technology, including optimisation for ever more diverse and specific applications, higher energy efficiency requirements, new regulations, as well as increased customisation.

Light has become intelligent, activating, relaxing or transformative, and the latest specialist knowledge is vital to optimise the possibilities created by new products and applications. With an up-to-date CPD seminar menu, practical training days, webinars and theme days, we can support you in finding your way in the world of light, within this dynamic market.

Our training is designed for architects and designers, electrical consultants and contractors and everyone concerned in a professional way with light, with the aim of simplifying your daily work. All those evaluating, operating, purchasing and using lighting systems as a profession will benefit from our practical training programme. In addition, the TRILUX Akademie is the perfect forum for networking between specialists and colleagues.

Is there something missing from our existing programme that you would like to learn more about? Simply contact us – we'd be glad to expand our offering.

We look forward to seeing you!

**Helen Loomes**  
Head of Akademie  
TRILUX LIGHTING LTD UK

**Richard Holt**  
Managing Director  
TRILUX LIGHTING LTD UK

# TRILUX AKADEMIE UK

OPENING THE DOOR  
TO COMPETENCE  
IN TECHNICAL LIGHTING

The training programme offered by TRILUX Akademie UK is aimed at architects, lighting designers, contractors, facilities managers and all qualified personnel in the lighting industry.

Our goal is to simplify your daily work and improve your efficiency.

THEME DAYS  
TRAINING DAYS  
WEBINARS  
LUNCHTIME SEMINARS

OPPORTUNITIES  
FOR TRAINING

#### Theme days

How do you best gain an overview and detailed insights into a complex specialist theme? With the TRILUX theme days. These offer participants a complete view of a specific technical area on one day and communicate valuable, compact expertise.

During this day, experts offer intensive and perhaps controversial insights from various angles, and there's enough time after each expert lecture for discussions and the exchange of information. The mixed groups of participants from diverse professional backgrounds make the theme days the perfect platform for networking among colleagues – and for looking beyond your own horizon.

#### Training days

Highly practical know-how direct from the experts – TRILUX Akademie training days focus primarily on providing you with optimum support for any challenge. Training days are carried out by specialists with many years of professional experience, communicating their knowledge in a comprehensible and practical way.

The exchange of information, discussions and interactivity are focused on achieving optimum learning and training effects. The small group sizes, usually 10 to 15 participants, ensure individual supervision and a good working atmosphere.

### **Webinars/Webcasts**

Education and training conveniently from your home office or workplace: online seminars by TRILUX Akademie are not only highly convenient but also reduce effort in terms of travel, time and costs. Participants are trained in virtual seminar rooms on the latest light and lighting themes, in less than one hour.

We are now utilising online learning in several formats: our popular webinars will continue as an interactive platform giving the opportunity for participants to ask real-time questions and receive answers from our experts; however we will also provide this information on-demand in the form of videos on our YouTube Channel; then we will also broadcast these videos at a published time to enable an interactive forum at the end, once again giving the opportunity for questions.

### **Lunchtime Seminars (CPD)**

The latest lighting knowledge for your employees: we'd be glad to individually organise CPD seminars on-site at your company. These seminars are hosted by highly qualified technical experts trained for teaching. They usually take one hour, are free, and all participants are given a CPD certificate.

---

**Target group** Designers, Engineers and Installers who plan and install modern light management systems.

---

**Number of participants** Maximum of 15

---

**Learning aim** In a mix of lecture and workshop you will gain fundamental knowledge about modern light management, and become familiar with the possibilities of practical planning and implementation of light management systems.

---

**Contents**

- Why light management?
  - Efficiency: energy saving with light management
  - Comfort: Human Centric Lighting and control needs
- Fundamental knowledge:
  - Principles: daylight control, scenes and presence detection
  - Sensor technology: which sensor for what purpose?
  - What is DALI?
- Planning and implementation: light management in various applications
- Overview: current technologies and concepts
- Practical example: LiveLink – how light management becomes simple at last

---

---

**Certificate** Participation certificate

---

Dates/locations and registrations at [www.trilux-akademie.com](http://www.trilux-akademie.com)

Training day

---

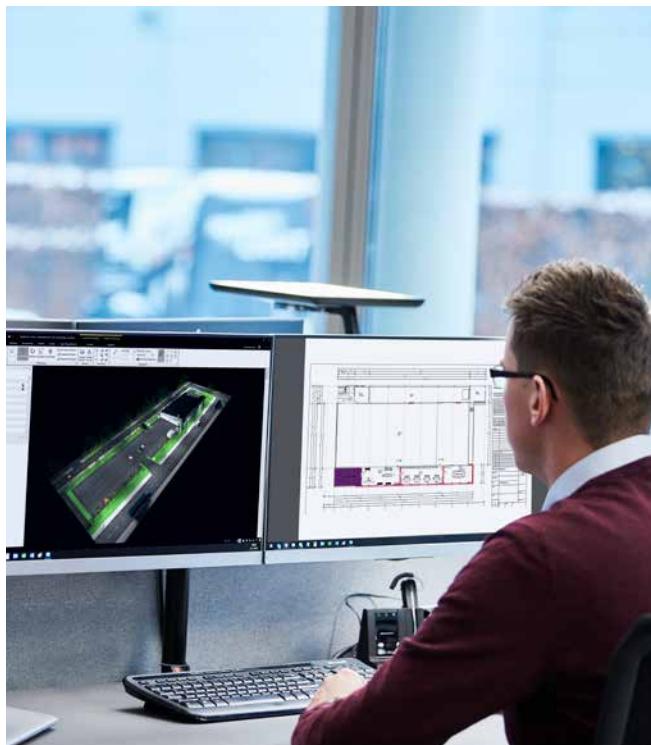

**Booking number:**  
SEUK0601

---

**Additional benefits:**  
Includes catering and training day documents

[www.trilux-akademie.com/](http://www.trilux-akademie.com/)  
SEUK0601

---

**Target group** Architects and Lighting Planners  
(also beginners and planners in industrial trades)

---

**Number of participants** Maximum of 10

---

**Learning aim** Utilising easy-to-follow practical examples and exercises, our Relux trainer will provide you with a sound understanding of the ReluxPro planning software during this seminar.

---

- Contents**
- Introduction to Relux
  - User interface and basic settings
  - Selection of luminaires
  - Positioning of luminaires in Relux
  - Creating interior layout
  - EasyLux (Quick calculation tool)
  - Importing CAD plans
  - Create external layout
  - Emergency Lighting
  - Exporting and outputs
- 

**Certificate** Participation certificate

---

Registrations and further locations/dates at [www.trilux-akademie.com](http://www.trilux-akademie.com)

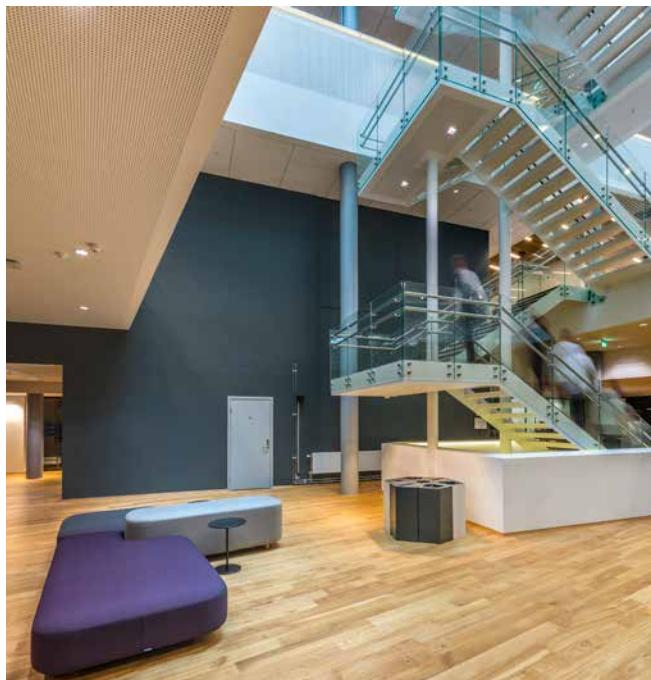

**Booking number:**  
**SEUK0101**

**Additional benefits:**  
Includes catering and  
training day documents

[www.trilux-akademie.com/](http://www.trilux-akademie.com/)  
**SEUK0101**

**Target group** Architects, Lighting Designers, Electrical Consultants, Contractors and Facility Managers

**Number of participants** Maximum of 10

**Learning aim** You will learn the essential basics of planning indoor lighting systems using DIALux 4.13 planning software. Utilising easy-to-follow practical examples and exercises, our DIALux trainer will provide you with a sound understanding of the software during this seminar.

**Contents**

- User interface and an understanding of the software settings
- Importing AutoCAD files
- Spatial construction
- Selection and positioning of luminaires
- Understanding of the calculation measuring tools and terminology
- Simple form of visualization
- Scene setting and controls simulation
- Emergency lighting
- Exporting AutoCAD layouts
- Produce meaningful calculation reports
- Preview demonstration of DIALux evo

**Certificate** Participation certificate

Registrations and further locations/dates at [www.trilux-akademie.com](http://www.trilux-akademie.com)

Training day

**Booking number:**  
**SEUK0105**

**Additional benefits:**  
Includes catering and training day documents

SEUK0105

# HOW TO PLAN CONTINUOUS LINE

---

**Target group** Lighting Designers, Architects, Sustainability Managers, Consulting Engineers

---

**Number of participants** Maximum of 10

---

**Learning aim** In this workshop we will learn why and when to use which option, ease of installation, flexibility, how to put together the most cost-effective system and lots of tricks that make life simple.  
Looking at things in a practical, hands-on way will help with a deeper understanding both of the product and the online tools configurator. Under the guidance of our inhouse expert you will be able to personalise which aspects you need to understand and gain his insight for future possibilities and applications.

---

**Contents**

- Evaluation of system types and advantages
- Overview of all component and how to configure
- Use of configuration tools
- Practical, hands-on assembly of a common example
- Unusual solutions and uses

---

**Certificate** Participation certificate

---

Registrations and further locations/dates at [www.trilux-akademie.com](http://www.trilux-akademie.com)

---

**Booking number:**  
**SEUK0403**

---

**Additional benefits:**  
Includes catering and training day documents

[www.trilux-akademie.com/](http://www.trilux-akademie.com/)  
**SEUK0403**

## WEBINARS

FLEXIBLE OPPORTUNITIES  
FOR LEARNING

### Webinars

Log in from the convenience of your own desk to update yourself on current topics being discussed within the lighting industry. Join in the debate with our lighting experts to create a virtual dialogue, or it is possible to submit subsequent questions and points of interest with the Akademie team who will be pleased to provide answers where possible.

In most cases we will repeat the broadcast twice during the day to conveniently fit into your own schedule and give you the ideal opportunity to join in.

New for 2020 – these topics will now be available on-demand on the TRILUX YouTube Channel  
<https://www.youtube.com/playlist?list=PLYtnhMbU7xSl-LA5adZK70qw8S1u1mG4>

---

**Duration** approx. 30 - 45 mins

---

**Location** The webinar is live at your own desk.

---

**Technical preconditions** You need Internet access, telephone or VoIP (microphone and loudspeaker or headset).

# WELL BUILDING STANDARD V2

The bar is being raised in the built environment. For all new buildings having a recognised measure of sustainability or energy efficiency is essential, and is also a good marketing tool for the letting agent, the added attraction of supporting human health is gaining ground. In an increasingly competitive labour market, employee retention has become a strong focus for businesses, and organisations are recognising that their staff are a prime asset that should be cared for. The WELL Building Standard, the world's first building certification that focuses exclusively on human health and wellness, is looking beyond carbon reduction and energy efficiency. In this webinar we explore the new version and how it differs from the previous one.

<b>Target group</b>	Sustainability Managers, Electrical Consultants, Lighting Designers & Architects
<b>Contents</b>	<ul style="list-style-type: none"><li>• Setting light levels to balance of ambient and task illumination</li><li>• Circadian lighting design and the impact of melanopic light</li><li>• How to calculate Merlanopic Lux</li><li>• How to ensure good colour quality to support visual acuity and accurate rendering of colour tones</li><li>• User education – is now a requirement to reflect the importance of the full 24 hours</li><li>• Surface design – Utilising higher surface &amp; contrast glare</li></ul>

Webinar

**Booking number:**  
**WEUK0701**

[www.trilux-akademie.com/  
WEUK0701](http://www.trilux-akademie.com/WEUK0701)

## LIGHT AROUND THE BUILDING

In this webinar we will introduce you to light planning considerations for 'Light Around the Building' which will allow you not only to emphasize architecture, but also to take into account aspects from personal safety to application specific requirements

<b>Target group</b>	Architects, Landscape Architects, Electrical Consultants, Engineers & Lighting Designers
<b>Contents</b>	<ul style="list-style-type: none"><li>• An introduction to Light Around the Building</li><li>• Overview of Planning considerations</li><li>• Making an impact with Facade and Entrance area lighting</li><li>• How to light focal objects and bring out detail</li><li>• Pathway lighting and safety</li><li>• Energy saving vs security at night</li><li>• An Introduction to Multi Lense Technology</li></ul>

Webinar

**Booking number:**  
**WEUK0201**

[www.trilux-akademie.com/  
WEUK0201](http://www.trilux-akademie.com/WEUK0201)

# CIRCULAR ECONOMY – A MOVE TOWARDS SUSTAINABILITY

To understand the impact of lighting on our finite resources and to look at a new way to re-use valuable commodities and materials. This has an impact on the ownership of products and the subsequent responsibility of re-using and re-cycling. The ultimate aim of a circular economy is to reduce waste by 100%.

<b>Target group</b>	Lighting Designers, Architects, Sustainability Managers, Consulting Engineers
<b>Contents</b>	<ul style="list-style-type: none"><li>• A look at trends in various sectors of industry and the direction this gives to lighting</li><li>• Leading to a sustainable approach to our built environment and also thinking about how we will react in the future</li><li>• Well thought out design at the manufacturing stage, both in product design, lighting design, maximising energy consumption and using it wisely</li><li>• How do we measure the carbon footprint – Resource Passport</li><li>• A different financing model – pay per use</li><li>• Responsibility – who should hold this?</li><li>• Case study of a completed project in the Netherlands</li></ul>

Webinar

**Booking number:**  
**WEUK0602**

[www.trilux-akademie.com/  
WEUK0602](http://www.trilux-akademie.com/WEUK0602)

## NEW GUIDELINES AND REGULATIONS FOR LIGHTING DESIGN

You will receive an overview of the forthcoming changes to EN 12464-1 and the effects on the planning of lighting for indoor workplaces, plus an awareness of what light sources will be banned from September 2021.

1. EN 12464: the new draft standard with enhanced light planning requirements
2. Lamp Ban: new requirements for lamps under Regulation for ecodesign requirements for light sources and separate control gear (EU) 2019/2020.

<b>Target group</b>	Lighting Designers
<b>Contents</b>	<ul style="list-style-type: none"><li>• Background and news on the draft standard prEN 12464-1:2019</li><li>• New terminology</li><li>• Supplementing the Table Structure</li><li>• Meaning of objects and persons</li><li>• Introduction of an illuminance band</li><li>• Important changes at a glance</li><li>• Examples and recommendations</li><li>• An overview of the EU directive - Regulation for ecodesign requirements for light sources and separate control gear (EU) 2019/2020</li></ul>

Webinar

**Booking number:**  
**WEUK0109**

[www.trilux-akademie.com/  
WEUK0109](http://www.trilux-akademie.com/WEUK0109)

# MAINTENANCE FACTORS: CHALLENGING THE 0.8 DEFAULT

An in depth look at Maintenance Factor calculations in order to give participants a full understanding of why we use 0.8 and why it is wrong to do so by default. The webinar will also give attendees an understanding of various methods that will help to avoid over lighting projects and increase energy efficiency.

Webinar

**Booking number:**  
**WEUK0103**

[www.trilux-akademie.com/  
WEUK0103](http://www.trilux-akademie.com/WEUK0103)

**Target group** Electrical Consultants, Engineers & Lighting Designers

**Contents**

- An introduction to Maintenance Factors calculation
- Why lamp lumen MF matters for LED?
- The importance of lease length in MF calculations
- Comparing like with like and Service Life comparison
- How new standards can help

## HCL 2.0

There has been a lot of controversy in the lighting industry about using the term Human Centric Lighting to mean active or dynamic lighting i.e. colour temperature changes and lux level changes. The good lighting designers say that they have always focused their designs on the human and their needs. So rather than focusing on just one aspect of lighting we need to bring everything back into perspective and look at the totality of lighting requirements, including biological, non-visual and emotional responses. The human needs to be put first, now is the time to re-brand lighting.

Webinar

**Booking number:**  
**WEUK0702**

[www.trilux-akademie.com/  
WEUK0702](http://www.trilux-akademie.com/WEUK0702)

**Target group** Architects, Electrical Consultants, Facility Managers, Lighting Designers

**Contents**

- The psychological element
- The feel good factor of daylight
- Energy efficiency versus quality
- The biological element – visual and non-visual
- Getting the basics right

# HCL – THE FUTURE OF LIGHT IN THE RETAIL TRADE

Human Centric Lighting has been well researched to date, but scientific findings are still lacking for the retail sector.

Oktalite as a lighting specialist for the retail trade wants to close this gap. To study the effect of light on people, a case study was conducted at two EDEKA supermarkets in Lower Saxony over a total period of ten months with 329 customers and 39 employees.

The study compared a supermarket with a dynamic HCL lighting concept to a reference store with static LED lighting. Both stores were surveyed 3 times during the period with regard to well-being, satisfaction and perception of the atmosphere following the course of the day. At the same time data was collected on sales development, time spent in the store, sick leave of the staff and key light-related parameters.

Join us for this webinar to discover the effect this had on turnover, levels of service and atmosphere, and also the consequences for staff relating to absenteeism, daytime sleepiness, well-being and sleep quality.

<b>Target group</b>	Retail, Industry, Commerce, Cities and Municipalities
<b>Contents</b>	<ul style="list-style-type: none"><li>Parameters of the research project</li><li>Findings and results in detail</li><li>Understanding behind these statistics</li><li>A glimpse into the future of retail</li></ul>

Webinar

**Booking number:**  
**WEUK0706**

[www.trilux-akademie.com/  
WEUK0706](http://www.trilux-akademie.com/WEUK0706)

## CARPARK LIGHTING – LIGHT THAT IS ALWAYS A STEP AHEAD

The future for lighting carparks is intelligent and reactive. Light can always be a step ahead if they operate hand in hand with swarm intelligence. Implementing running light results in significantly lower energy costs, increased lighting comfort and improved visual environment. In this webinar we will explore the techniques that can be utilised ranging from a basic presence control through to full intelligent interactive systems.

<b>Target group</b>	Architects, Lighting Designers, Electrical Consultants, Contractors, Facility Managers, Developers & End User, Landscape Architects
<b>Contents</b>	<ul style="list-style-type: none"><li>Understanding the unique requirements of carparks</li><li>How to implement the lighting control scheme</li><li>Simple explanation of the commissioning process</li><li>Introduction to full managed services, what is available now and looking into the future</li></ul>

Webinar

**Booking number:**  
**WEUK0502**

[www.trilux-akademie.com/  
WEUK0502](http://www.trilux-akademie.com/WEUK0502)

## BIG SHEDS – LIGHTING FOR LARGE SPACES

In this webinar we will learn to understand the challenges and complexities around lighting and controls of large spaces be they, industrial, data centres, out of town retail or logistics centre. We will explore the importance of the distribution of the light output especially on vertical illuminance within a flexible space. In this ever growing market sector and with the onset of internet based shopping – how might this effect the need for lighting and energy consumption?

Webinar

**Booking number:**  
**WEUK0501**

[www.trilux-akademie.com/  
WEUK0501](http://www.trilux-akademie.com/WEUK0501)

### Target group

Lighting Designers, Electrical Consultants, Contractors, Facility Managers, Developers & End User

### Contents

- Examining the different approaches between for both owner/occupier Vs lease holder
- Cost benefit ratios
- Finance solutions
- Intelligent controls
- HCL for staff wellbeing

## LIGHTING FOR HEALTHCARE

Now lighting design is beginning to take into account our biological responses to create more productive, healthier environments -your circadian (latin for "of the day") rhythm controls many functions of your body. It is entrained by the changing spectral distribution of light – adjusting your body to the environment that it is experiencing.

This has been proved to be beneficial especially within healthcare environments and can greatly improve the quality of life for elderly or dementia patients. So this sector of our society have now had the benefits of using lighting in this way for some time and there are some case studies that show impressive results.

In this webinar we will look at real installations and the effect over time on both patients and staff alike.

Webinar

**Booking number:**  
**WEUK0705**

[www.trilux-akademie.com/  
WEUK0705](http://www.trilux-akademie.com/WEUK0705)

### Target group

Architects, Electrical Consultants, Facility Managers, Health Care Professionals

### Contents

- The effects of ageing on the eye
- How lighting can improve wellbeing
- How lighting can improve the environmental factors including safety
- The hidden benefits for staff and families
- Case studies looking at the benefits for patients and all subsequently all stake holders within the project

## LUNCHTIME SEMINARS

THE LATEST LIGHTING KNOWLEDGE FOR YOUR EMPLOYEES

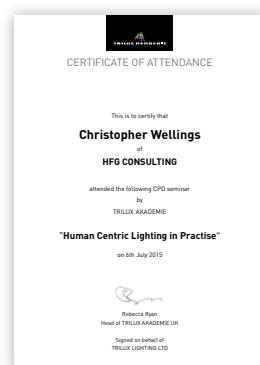

### Lunchtime seminars (CPD)

Whilst all of our Akademie training can be logged as part of your Continuous Professional Development, our Lunchtime Seminars are specifically designed to meet that aim in the most convenient way possible for you.

We understand that your working day is already extremely full and so, as the name suggests, these seminars are held during your lunchbreak, taking no longer than an hour, with lunch provided by us. Our contact team will work with your company's CPD organiser to make the booking and delivery of a Lunchtime Seminar in your premises seamless.

These free seminars are hosted by highly qualified technical experts, trained for teaching. Following the seminar all participants will receive a copy of the presentation and a CPD certificate via email.

There has been a lot of controversy in the lighting industry about using the term Human Centric Lighting to mean active or dynamic lighting i.e. colour temperature changes and lux level changes. The good lighting designers say that they have always focused their designs on the human and their needs. So rather than focusing on just one aspect of lighting we need to bring everything back into perspective and look at the totality of lighting requirements, including biological, non-visual and emotional responses. The human needs to be put first, now is the time to re-brand lighting.

<b>Target group</b>	Design Engineers, Electrical Consultants, Lighting Designers, Contractors, Architects & Facility Managers
<b>Contents</b>	<ul style="list-style-type: none"><li>• The psychological element</li><li>• The feel good factor of daylight</li><li>• Energy efficiency versus quality</li><li>• The biological element – visual and non-visual</li><li>• Getting the basics right</li></ul>
<b>Duration</b>	approx. 1 hour
<b>Certificate</b>	Participation certificate

# IS LIGHT A DRUG?

If we feel strengthened by the morning sun or relax when walking in the evening sunset, this is not just imagined and is not accidental either, because sunlight changes its colour composition during the course of the day to influence many biological processes in the human body. For example, the blue light component in the morning is especially high to provide an activating effect that promotes concentration. In the evening on the other hand, the blue component in sunlight lessens while red increases – prompting melatonin levels to increase which is the key to a good night's sleep. Because people mostly spend their time inside these days though, these important impulses influencing the biological rhythm are often lost. Intelligent, biologically effective lighting solutions offer an alternative.

<b>Target group</b>	Design Engineers, Electrical Consultants, Lighting Designers, Contractors, Architects & Facility Managers
<b>Contents</b>	<ul style="list-style-type: none"><li>• Focussing on human biological response to lighting</li><li>• Recapping the biology of light and its effect on our circadian rhythms, human well-being and health</li><li>• Case studies on lighting in education projects</li><li>• Looking at research to improve the environment for elderly people &amp; dementia wards</li></ul>
<b>Duration</b>	approx. 1 hour
<b>Certificate</b>	Participation certificate

## LIGHTING FOR HEALTHCARE

Now lighting design is beginning to take into account our biological responses to create more productive, healthier environments -your circadian (latin for "of the day") rhythm controls many functions of your body. It is entrained by the changing spectral distribution of light – adjusting your body to the environment that it is experiencing. This has been proved to be beneficial especially within healthcare environments and can greatly improve the quality of life for elderly or dementia patients. So this sector of our society have now had the benefits of using lighting in this way for some time and there are some case studies that show impressive results.

In this lunchtime seminar we will look at real installations and the effect over time on both patients and staff alike.

<b>Target group</b>	Architects, Electrical Consultants, Facility Managers, Health Care Professionals
<b>Contents</b>	<ul style="list-style-type: none"><li>• The effects of ageing on the eye</li><li>• How lighting can improve wellbeing</li><li>• How lighting can improve the environmental factors including safety</li><li>• The hidden benefits for staff and families</li><li>• Case studies looking at the benefits for patients and all subsequently all stake holders within the project</li></ul>
<b>Duration</b>	approx. 1 hour
<b>Certificate</b>	Participation certificate

# TRILUX AKADEMIE UK

THE BEST ENVIRONMENT  
FOR ACHIEVING YOUR  
POTENTIAL

**Fresh ideas need room – and the better the room is designed the easier it is to think and learn**

The TRILUX Akademie at our Chelmsford site is equipped to the very latest standards. Bright and friendly lighting in each room shows how ideal light helps towards a highly pleasant atmosphere for learning. The right surroundings are waiting for you for every topic: display areas, training and meeting rooms and work areas for practical experiences.
